

Dear parents,

We hope you are all well and are settling in to some kind of routine. It's good to see all the children contributing regularly on Seesaw now. Please note the following points:

Seesaw:

We came to a realisation this morning that if the students log into Seesaw using the individual login codes that we sent last week, then they cannot see each other's work. We were under the impression that they could! If the students log in using the QR code that we have attached, then they will be able to see each other's work. If your child was at school on Thursday 12th March, then they should have this QR code glued into their correspondence books already.

We suggest:

- using individual code when they have some work to complete (the individual 'work done/to do' is laid out more clearly for them)
- using QR code when they want to have a look at what their peers are doing. They can comment on work, but it must be helpful and specific. When they are logged in via QR code, they will often be asked to 'choose who they are'. They should always choose their own name (and not the person they are writing to, as this causes confusion!)

Zoom:

We would like to arrange a class video call this Friday 27th March at 3pm using Zoom. The aim of the call is to allow the students to have time to chat to each other and maybe play a few games. Of course, they can ask questions regarding the work that has already been set, but we will not be 'teaching' anything new on the call. The teachers will set up the call and send the parents the link via email on Friday (no Zoom account needed - just click on the link). The students will be placed in a 'waiting room' before the call starts. It can be accessed on tablet, computer and smart phone.

According to data protection laws, an adult must be present during the call so we ask you to be 'in the background'.

If you & your child cannot make it at 3pm on Friday, don't worry, we hope to have another one soon!

!: You do not need a Zoom account, but if you are using a tablet or smart phone for the call, you will need to download the Zoom app. (Search Zoom on apple app store or Playstore for Android devices)

Spelling Shed:

In class, the children are used to practising their spellings using the Spelling Shed website. If you are in agreement, they can continue using this. They may remember their log-in details; if not, just send us an email.

All emails and important information that have been sent home to parents can be found on the school website: <https://csianglo.org/>

Some resources for families during this time can be found [here](#).

Thank you for your continued support,

Katrina Fullerton & Sarah Joannès
