

Dear Parents,

We hope things are going as well as can be expected as we all do our best to try and make the new world of online learning work for everyone.

As week 3 of online learning begins, you will find work for CPs on Seesaw, Bug Club and Education City. If you need any guidance on logging on to any of these educational platforms, or you need usernames and passwords re-sent, please do not hesitate to get in touch.

A note on Seesaw:

We came to a realisation this week that if the students log into Seesaw using the individual login codes that we sent via email, then they cannot see each other's work. We were under the impression that they could! If the students log in using the QR code that we have attached, then they will be able to see and comment on each other's work.

We suggest:

- using individual code when they have some work to complete (the individual 'work done/to do' is laid out more clearly for them)
- using QR code when they want to have a look at what their peers are doing. They can comment on work, but it must be helpful and specific. When they are logged in via QR code, they will often be asked to 'choose who they are'. They should always choose their own name (and not the person they are writing to, as this causes confusion!)

All emails and important information that have been sent home to parents can be found on the school website: <https://csianglo.org/>

Some resources for families during this time can be found [here](#).

Have a restful weekend,

Katrina Fullerton
