

Dear Parents,

I hope the first week of confinement went as well as can be expected. We know this is a very strange and surreal situation that we are all facing and we are all trying our best to make it work.

I am learning my way around the online learning system and it is very trial and error as I try to ensure a realistic work balance for my students. I have created a learning grid so the children can choose a task that interests them and be creative about how they present it. In addition to this, I will also be posting activities in Seesaw.

I am aware that the amount of screen time is a problem, so I have taken that into consideration and am trying to give the choice to our CP students so some activities can be completed offline.

I am also aware that this is a very stressful time for families as you all try and juggle family life and work/ school commitments. I will post work/ tasks but do not expect them all to be completed and do not want parents or children to feel pressured by the work I am setting.

Here is a link to some useful resources for parents:

[Resources for parents](#)

All emails that are sent to parents will also be available to the school website: <https://csianglo.org/>

Sending lots of patience and strength from my home to yours,

Miss Bellanca
